

**Proven
best-in-class
reliability,
year after year.**

Oxlife INDEPENDENCE[®]

Portable Oxygen Concentrator

The Oxlife INDEPENDENCE, with our patented Energy Smart Technology™, sets the standard for long operating life, reliability, durability and 24/7 performance.

Equipped with DNA Technology®, it is the **DME choice for hospital discharge** and the hospital-to-home transition, meeting the majority of long-term oxygen therapy requirements.

Continuous flow up to 3.0 LPM
and 12 pulse settings

Proven 24/7 use, year after year
backed by a five-year warranty

Use as POC & stationary
dual billing (E1390 & E1392)

No tanks to refill
or ongoing tank deliveries

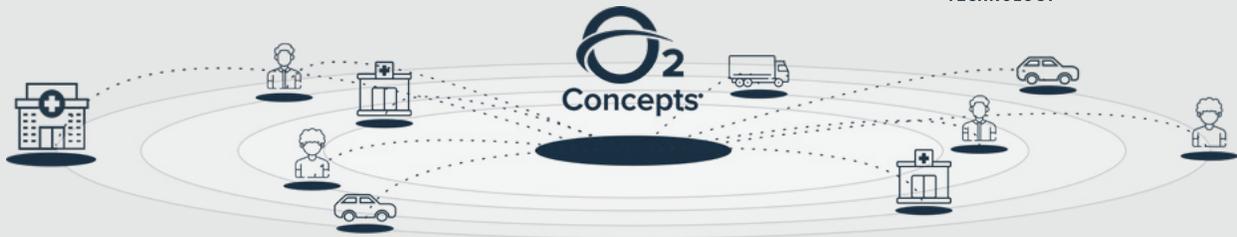

24/7 remote monitoring
with DNA Technology

Intuitive, easy to use
LCD display and setting controls

DNA TECHNOLOGY[®]

Remote asset management

O₂ Concepts' proprietary, device-initiated connectivity solution

Easily access data from any device
via secure, cloud-based platform

24/7 remote monitoring
for device performance

Inventory control and
loss prevention technology

Proactively promote enhanced
patient therapy adherence

Reduce field calls with intuitive
customer support resources

Ideal for hospital discharge
and non-delivery model

OXLIFE INDEPENDENCE® PRODUCT SPECIFICATIONS¹

Dimensions	Height: 51,5 cm (20.2 in) • Width: 27,55 cm (10.85 in) • Depth: 24 cm (9.45 in)
Weight²	7,57 kg (16.7 lbs)
Oxygen Flow Rate (Pulse 15-40 BPM)	Continuous: 0,5 – 3,0 LPM in 0,5 increments Pulse: 0,5 – 6,0 in 0,5 increments (8 – 96 mL)
Battery Duration³	5,75 hours @ 2 pulse at 20 bpm 2,5 hours @ 2,0 LPM continuous
Battery Recharge Time⁴	2,5 hours
Oxygen Concentration	87% – 95% at sea level at all settings
AC Power	Universal Input: 100 – 240V, 50/60 Hz
DC Power	12 – 15 VDC • 15 amps

¹ O₂ Concepts® reserves the right to revise specifications at any time without notice ² Production weight excludes cart kit
³ Battery duration presented for two-battery system ⁴ Battery charge time increases if device is operating while charging

Smarter, more efficient and more reliable oxygen therapy than ever before

A legacy of design innovations, cutting edge technology and unparalleled support

A simplified, effective hospital/clinic discharge process

Relied upon by leading academic and research medical centers, and by hospital groups and homecare providers

The ability to remotely monitor every device in your fleet

The most cost-effective device for the non-delivery operating model

Designed for the reliability and durability needs of the DME industry
